
Electronically Controlled Pattern Sewing Machines

PLK-E10050

Extra-large Sized Pattern Sewing Machine

* Ultra-large stitching area

1000mmx500mm

* Dedicated cloth holder mechanism

Adoption of exclusive X-Y drive mechanism for extra large sewing enables the usage of clamping system even made by solid steel material.

Easy mounting / removing type clamping system "such as cassette type etc." is realised.

Max. sewing speed	2,000rpm(intermittent) /1,500rpm(continuous) (Sewing speed may be limited by the operation, material or clamp mass.)
Stitch length	0.1 – 12.7mm (minimum resolution 0.1)
Needle	DPx17#18
Hook	Large size, oscillating shuttle hook
Max. stitches	8,000/pattern
Presser foot drive	Pneumatic
Mass	500kg
